ABSTRACT

This document is the fifth in the series, BIBLIOGRAPHIES ON EDUCATIONAL TOPICS (BETS), providing topical searches of ERIC literature in the scope areas of teacher education and health education, physical education, and recreation education. Here, the subject of consumer health is treated bibliographically. Included are topics dealing with the wise selection of health products and services, agencies concerned with the control of these products and services, evaluation of quackery and health misconceptions, health careers, and health insurance. Citations were selected from the two files contained in the ERIC data base: RESOURCES IN EDUCATION (RIE) and CURRENT INDEX TO JOURNALS IN EDUCATION (CIJE). RIE abstracts documents generally unavailable commercially; citations provide, in addition to bibliographic data and the abstract, the document's accession (ED) number and its availability in either microfiche (MF) or "hard-copy" (HC) from the ERIC Document Reproduction Service (EDRS). An EDRS order form with current price schedule is included at the end of this bibliography. When a document is not available from EDRS, an alternate source is given. CIJE indexes articles from educational journals. Annotations are supplied where article titles are not self-explanatory. CIJE articles are not reproduced by ERIC. The reader is referred to the original journals, available in many libraries. (JD)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

FOREWORD

This document is the fifth in the series, Bibliographies on Educational Topics (BETS), begun by the ERIC Clearinghouse on Teacher Education in 1976 to provide topical searches of the ERIC literature in the Clearinghouse scope areas of teacher education and health education, physical education, and recreation education.

In the three years since the ERIC Clearinghouse on Teacher Education assumed responsibility for acquiring documents in Health, Physical Education, and Recreation, the ERIC data base in these areas has grown to the extent that certain topics now need to be selected and treated bibliographically.

During discussions regarding which of the content areas of health education should be treated bibliographically, it became apparent that consumer health--that is, topics dealing with the wise selection of health products and services, agencies concerned with the control of these products and services, evaluation of quackery and health misconceptions, health careers, and health insurance--is a very timely area. Undoubtedly contributing to the interest in the consumer health area is Public Law 94-317, commonly referred to as "the National Consumer Health Information and Health Promotion Act of 1976," which was passed in June 1976.

Citations were selected from the two files contained in the ERIC data base: Resources in Education (RIE) and Current Index to Journals in Education (CIJE). RIE abstracts documents generally unavailable commercially; citations provide, in addition to bibliographic data and the abstract, the document's accession (ED) number and its availability in either microfiche (MF) or "hard-copy" (HC) from the ERIC Document Reproduction Service (EDRS). An EDRS order form with current price schedule is included at the end of the bibliography. When a document is not available from EDRS, an alternate source of material is given. CIJE indexes articles from over 700 educational journals, and annotations are supplied where article titles are not self-explanatory. Unlike RIE documents, CIJE articles are not reproduced by ERIC in any form; the reader is referred to the original journals, which are available in many libraries.

Actual computer printout pages are used in the reproduction of this publication. Entries are arranged chronologically, with most recent publications listed first, and with Educational Journal (EJ) articles preceding Educational Document (ED) abstracts. The Clearinghouse is interested in reader reactions to this experimental format.

The ERIC computer search on consumer health represents only a portion of the literature available to health educators. Yet, though not comprehensive, the bibliography nevertheless should acquaint health educators with many of the prominent persons in the area of consumer health and serve as a point of departure for further inquiry. The Clearinghouse welcomes and solicits assistance in making the data base in consumer health more comprehensive. Health educators are asked and encouraged to submit documents for evaluation and possible input into the ERIC data base. The reader response page at the end of this bibliography provides information for those interested in contributing their knowledge to the ERIC system.

Making Nutrition Education Count: A Guide for Nutrition Education K-6, Grade 6.

Kratky, Patricia; Haigh, Lois

County Vocational Cooperative Center, Moorhead, Minn.;

Minnesota State Dept. of Education, St. Paul, Div. of Vocational and Technical Education.

Sponsoring Agency: Bureau of Elementary and Secondary Education (DHEW/OE), Washington, D.C.

Publ. Date: Jul 75 Note: 45p.; Colored Pages; For related guides grades K-5, see SE 020 860-865; Best copy available

Descriptors: Consumer Education/ *Curriculum Guides/ *Elementary Education/ Food/ Grade 6/ *Health Education/ Instruction/ *Nutrition/ *Science Education

Identifiers: Elementary Secondary Education Act Title III/ ESEA Title III

This curriculum guide for nutrition education grade 6, was designed to incorporate knowledge of thirteen concepts into the child's decision-making processes as a food consumer. These concepts, as covered by the guide, are: affecting bodily well-being through nutrition; affecting dental health through nutrition; models for diet selection; controlling bacterial growth in foods; how to keep foods safe temporarily; treating foods to prolong safe usage; ethnic food traditions; family food customs; effects of peer influence on food habits; effects of advertising on food choices; supply of money affects food choices; accessibility of food affects food choices; preparing foods in different ways. Each concept is taught in one lesson which can usually be accomplished in about a half hour. Several duplication masters are included. (RE)

The student manual for high school level special needs students was prepared to acquaint deaf students with the various types of insurance protection that will be available to them in their future life. Seven units covering the topics of what insurance is, automobile insurance, life insurance, health insurance, social security, homeowner's insurance, and other kinds of insurance are presented. Each lesson was carefully written for easy reading and comprehension and provides information, vocabulary, and assignment questions for the specific topic covered. (LJ)

Serving Migrant Families, 1975.

Oliver, Barbara, Ed.

North Carolina State Advisory Committee on Services to Migrants, Raleigh.

Publ. Date: 75 Note: 85p.; For related document, see ED 080 268

Descriptors: *Agency Role/ Directories/ Educational Programs / Employment Services/ Health Services/ *Human Services/ *Migrant workers/ *Outreach Programs/ Social Services/ *State Programs

Identifiers: *North Carolina

The directory describes services provided to migratory agricultural workers and their families, through the governmental and nongovernmental agencies interested in and responsible for their well-being. Agencies are grouped into: (1) United States government agencies, (2) North Carolina State government agencies, and (3) private organizations. Among the services provided by the various agencies are: adult basic education; camp inspection; consumer education; counseling; crew leader registration and training; day care; family planning; health services; home care instruction; job development, training, and placement; legal services; self-help housing loans; and emergency transportation. Although the services appear to be all-encompassing, most have limitations based on such factors as definition of migrants, jurisdiction of serving agency, funding requirements and limitations, availability of staff, and limitations to indigenous population. Lists of members of the State Advisory Committee on Services to Migrants and contact persons for the various agencies are provided. An index of services available to migrants is included. (NQ)

Guidelines for Health Care Volunteers.

Fales, Ann W.; Leppert, Alice M.

Church Women United, New York, N.Y.

Publ. Date: 74 Note: 46p.

Available from: Church Women United, Service Center, Box 37815, Cincinnati, Ohio 45237 (\$2.00)

Descriptors: *Community Health Services/ Delivery Systems/ Health Personnel/ *Health Services/ Program Administration/ Program Guides/ *Program Planning/ *Volunteers/ *Volunteer Training

The complex issue of health care delivery is of continuing concern among health care volunteers. Trends in health services that affect the volunteer include those resulting from government or funding policy; changes in the structure of the health professions; increasing consumer interest in health care; and the growing demand for health care information. Volunteer roles include direct service, administration, and policy setting. The planning and implementing of community health volunteer programs can follow one of two models. The first includes six steps: exposure-reflection; problem identification, analysis, and data gathering; goal setting; strategy and planning; implementation; and evaluation. The second focuses on the broad situation but can use the same steps as the first. The attitude to volunteer work should be that of professional commitment to the particular job and should be accompanied by a commitment to interpersonal skills in working with others and sometimes also advocacy for community health. Administering a community health care program involves: recruitment; using the available skills of the volunteers; orientation of volunteers; task design, assignment, and scheduling; and supervision. A form for community survey for a comprehensive approach to health concerns is included. (EC)

As the third volume in a five volume series of position papers on American Indian education, this publication presents eleven position papers on special programs. Papers are titled as follows: (1) "A Vision: The Warrior-Scholar-Community Activist, The End Product of Indian Studies"; (2) "The Relation of Indian Studies to the University Structure"; (3) "The Importance of Indian Studies to Interracial Understanding"; (4) "Vocational and Technical Education Training Model for Indian Groups"; (5) "An Indian View of Vocational-Technical Education"; (6) "The Need for Consumer Education Among Indians"; (7) and (8) "Training Needs of Indian Parent Advisory Committees" (two different articles on the same topic); (9) "Health Education"; (10) and (11) "A Variation Plan for Indian Communities". A major theme running throughout these papers is that of Indian control of Indian destiny as relative to all aspects of Indian education. Major consideration is also given to the importance of the relationship between economic development and educational development in the various Indian communities (urban, rural, reservation, etc.) (JC)

A Study of the Relationship Between the Level of Nutritional Consumption and the Education, Income, and Family Size of Selected Poor Families in Atlanta, Georgia.

Davis, Flora Powell

Publ. Date: Jul 75 Note: 125p.; Ph.D. Dissertation, Walden University

EDRS Price MF-\$0.76 HC-\$5.70 Plus Postage

Descriptors: Consumer Education/ *Doctoral Theses/ Eating Habits/ Economic Disadvantage/ *Educational Background/ *Family Income/ Family Life/ Family Life Education/ Family Resources/ Food/ Food Standards/ Health Education/ *Nutrition/ Nutrition Instruction/ Socioeconomic Status

Identifiers: *Family Size/ Georgia (Atlanta)

The stated objectives of this study were to determine: (1) the differences in knowledge of nutrition, of income, and of family size in the upper and lower strata families; (2) the shopping practices of families; (3) average weekly food expenditures; (4) mean educational level; and (5) differences in the mean weekly food expenditures -- a comparison of the national norm mean and the standard set for this study. Findings reveal that 33 percent of the families with adequate money expenditure on food had inadequate diets, while 77 percent of the families require larger expenditures to provide adequate diets. Families with the lowest per capita incomes were found to have the most inadequate diets. Most diets were below recommended allowances of fruits, vegetables, milk, bread, and cereals. Inadequate nutrition was stated to be related more to lack of use of knowledge than to lack of knowledge itself, and to family size rather than to amount of money income. Recommendations included that further research be conducted with these families regarding dietary behavior and the application of nutrition education. (Author/AM)

Identifiers: *Quackery

This guide to consumer health contains two parts, the first of which covers consumerism, cosmetics (aids for skin problems, dandruff, deodorants, dentifrices), food shopping, and clothes shopping. Part 2 discusses health quackery,

including arthritis quackery, and mail-order "doctoring", food quackery, weight-reducing products, and how to recognize health quackery. It also deals with over-the-counter drugs, choosing a doctor, and food fallacies. Both parts 1 and 2 include lists of things to discuss and do, suggestions for special research, and a test on the material covered. Resource materials, behavioral objectives, and page notes are included for teachers using this guide. (MK)

The hearings cover four bills, three of which deal with revision or amendment of the Public Health Service Act. The fourth concerns (1) the establishment of a National Health Center for Health Education; (2) health education to reduce illness and death, and to moderate self-imposed risks; and (3) consumer health education and preventive medicine. The text of each of the four bills is presented in this report. In addition to the presentation of testimony and supportive documents such as articles, publications, and communications, the document also contains appendixes on disease control, and on health education and promotion. Education for Community Participation in Health Decision Making: An Evaluation of Columbia University's Continuing Education Program for Health Consumers.

Beder, Harold W.; Darkenwald, Gordon G.

Columbia Univ., New York, N.Y. Center for Adult Education.

Publ. Date: Nov 74 Note: 42p.; Not available in hard copy due to marginal legibility of original document

Descriptors: *Adult Education/ Community Development/ *Community Health/ Community Health Services/ *Community Involvement/ Community Programs/ Community Surveys/ *Consumer Education/ Health Education/ *Program Evaluation/ Questionnaires/ Success Factors

Identifiers: *Health Consumer Education Program, CEP

The Health Consumer Education Program (CEP) was designed to foster "maximum feasible participation" of the people in planning, administering, and implementing community health care programs through adult education. This report, an analysis and evaluation of CEP, describes the program, presents data on intended and current practice, analyzes discrepancies and discusses recommendations using data obtained from interviews with key CEP staff, community participants who served as course coordinators, evaluation sheets completed by all course participants, questionnaires (Appendixes A and B) mailed to course participants, observation of a few classes, and analysis of documents (proposals, progress reports, course outlines). The community participation on the steering committees in all four low-income areas created a broad range of learning experiences and articulated the needs of the communities. Comparing the summary of program intent with the survey results from the questionnaires (115 responses, reflecting a 34.6 percent response rate) and interviews, it was found that there were no discrepancies between the goals and actual practice. Recommendations pointed out several weaknesses: the need to recruit more community leaders, more emphasis on application of skills and knowledge, more technical assistance for projects, and the institution of continuous program evaluation from the inception of the program. (JB)

Descriptors: *Administrative Agencies/ Alcoholism/ Communications/ Disease Control/ Drug Abuse/ Educational Needs / Food and Drug Inspectors/ Food Standards/ Grants/ Health Needs/ *Health Programs/ *Health Services/ Manpower Needs/ Mental Health/ Mental Health Programs/ *Program Descriptions/ Project Applications/ *Public Health/ Research/ Resources

For potential grant applicants and for the general public, the booklet describes the programs of the six Public Health Service agencies in the American health care system. Each program is described concisely in terms of: its purpose and legal basis; applicants' eligibility for grants and the basis for their award; the special requirements made of applicants; and instructions for applications. The programs are presented by agency: the Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA), which deals with the sociomedical problems of alcohol abuse, drug abuse, and mental illness; the Center for Disease Control (CDC), which leads the national attack on communicable and vector-borne diseases, and works to control many other, noninfectious conditions; the Food and Drug Administration (FDA), which is the nation's first consumer-protection agency; the Health Resources Administration (HRA), responsible for health planning, manpower training, and research and evaluation of health resources and needs; the Health Services Administration, (HSA), whose goal is to improve the delivery of health services; and the National Institutes of Health (NIH), which conducts and supports basic research, research training, and biomedical communications. Descriptors: *Delivery Systems/ Evaluation/ *Health
Personnel/ *Health Services/ Human Resources/ *Manpower Needs/
Medical Services/ *Models/ Nurses/ Physicians

Volume Two of the report presents an inventory of 56 models directly or peripherally related to health manpower supply and requirements problems. The report is organized into four main sections: (1) a description of the contents of the inventory, methods used in its development, model inventory descriptors, and model selection rationale; (2) a discussion of the health manpower model classification scheme used to categorize the models; (3) the inventory itself; (4) four indexes to assist in locating individual models: name of developer, data source, health manpower model bibliography, and input and output variables for each model category. Each description includes purpose and sponsor, scope and subject, model assumptions, model structure, inputs and outputs, computer characteristics, and modeling techniques employed. The majority of the models were found to have been developed using some form of regression analysis. The remaining models are a mixture of organization models or descriptive models. Classification by subject area indicates over one-half concerned with health care delivery organizations, less than one half with health manpower resources and consumer service behavior. Of the manpower models the majority are concerned with physicians or nurses. (Author/SA)

This document is organized in four parts. Part One is a "State on the Needs for Nutrition Education" submitted by the Board of Directors, Society for Nutrition Education in connection with The Panel on Consumer Programs and Public Education, The National Nutrition Policy Study, to the Senate Select Committee on Nutrition and Human Needs. Part Two comprises seven discussion papers focusing on such topics as nutrition and diet, electronic media and nutrition education, nutrition labeling and advertising of food as related to nutrition, consumer programs, and public education, sociocultural norms in the United States and implications for nutrition education, and progress on population nutrition education. Part Three comprises three papers by Richard K. Manoff focusing on Nutrition Education and the Media: "The Media and Social Change," "Potential Uses of Mass Media in Nutrition Programs, and "You May Be Teaching Nutrition, But Are They Learning?" Part Four includes general articles focusing on such topics as children's television, milk drinking by children, and nutrition education. Articles were obtained from such sources as Action for Children's Television, the American Academy of Pediatrics, Center for Science in the Public Interest, Co-op News, and the National Dairy Council. A Research and Development Project to Design a System and Supporting Materials, to Provide an Adult Performance Level (APL) in Four Major Sub-Areas for Adult Basic Education.

Texas Education Agency, Austin, Div. of Adult and Continuing Education.; Texas Univ., Austin, Div. of Extension.

Publ. Date: Nov 72 Note: 75p.; A preliminary report prepared for the Adult Performance Level State Directors Advisory Conference (November 2-3, 1972)

Descriptors: Adult Education Programs/ *Adult Literacy/ Communication Skills/ Community Resources/ Consumer Economics/ *Daily Living Skills/ Educationally Disadvantaged/ *Educational Objectives/ *Educational Research/ Functional Illiteracy/ Government (Administrative Body)/ Health/ *Identification/ Interpersonal Competence/ Laws/ Occupational Information/ Problem Solving/ Transportation

In accordance with the national aims for adult literacy programs, an Adult Performance Level (APL) project was devised whose primary goal was to produce sequential tests of APL objectives derived from the requirements of adult living in four major areas: reading, writing, computation, and general knowledge. To document these abilities and skills that minimally performing adults must have and to identify characteristics distinguishing the successful from the unsuccessful functioning adult, field interviews were conducted with 49 individuals in 25 State and Federal agencies and foundations whose work related to minimally performing adults. A nationwide field test was conducted which, together with the earlier interviews and a literature search, enabled project personnel to identify nine general areas in which minimally performing adults must be able to function. Objectives and tasks were assigned to each of the nine areas. The general knowledge areas are: occupational knowledge, consumer economics, health, community resources, government and law, and transportation. Basic skill areas are: communication skills, problem solving techniques, and interpersonal dynamics. (A 10-page bibliography is included.) (AG)

This book contains methods and suggested activities for teaching health to elementary school pupils through many new kinds of enriched educational experiences. It is directed mainly at four groups: (a) college students who are preparing to be elementary school teachers, (b) those studying to become health education specialists, (c) the teacher who is looking for more productive ways to teach health to children, and (d) administrators and school health personnel. Part 1 contains materials which show the need for improved health programs in elementary schools. Part 2 discusses the total school health program and points out ways for teaching health more effectively. In part 3 new and creative teaching methods are discussed. Part 4 contains specific suggestions and course outlines for teaching nutrition, dental health, body growth, structure and function, safety, mental health, communicable diseases, drugs, tobacco and alcohol, family life and sex education, and consumer education to students in grades K-6. The appendix contains a list of sources of free and inexpensive teaching aids, recommended health textbooks for children, and a list of helpful teaching materials and guides to special media. Identifiers: SAHE/ *Stuc/ of Allied Health Education

This report focuses on the Study of Allied Health Education (SAHE) project that was established for the purpose of designing an action plan on a national scale for allied health and nursing education. The specific task of the project was the determination of the role that community and junior colleges might fulfill in increasing ambulatory care in the United States. The study involved regional workshops, national conferences, special interviews, questionnaires, and a literature search. This report presents the major findings and recommendations resulting from those activities. The chapters of the book are: 1. SAHE Objectives: Definition of Primary and Ambulatory Care; Objectives--Student Related Issues; Curriculum Development and Quality of Instruction; Articulation, Teacher Preparation, and Continuing Education; Administration and Administrative Costs; Manpower Information; Emerging Health Care Programs; 2. SAHE Procedures: National Advisory Committee; National Professional Associations Conferences; Regional Workshops; Questionnaire: Clinical Instruction; Continuing Education and Consumer Health Education; 3. SAHE Findings: Priorities for SAHE Objectives; Literature Search; Conference and Workshops; SAHE Questionnaire; Status of Clinical Instruction; and Continuing Education and Consumer Health Education; 4. SAHE Recommendations; Targets of Opportunity; and 5. SAHE Projections. Nine appendixes, three figures, and 16 tables are included. (DB)

Nutrition and the Growing Population. Environmental Education Curriculum. Revised.

Topeka Public Schools, Kans.

Sponsoring Agency: Bureau of Elementary and Secondary Education (DHEW/OE), Washington, D.C.

Publ. Date: Nov 73 Note: 143p.; Best copy available; Occasional marginal legibility

Descriptors: Curriculum Guides/ Demography/ *Environmental Education/ Environmental Influences/ *Health Education/ Health Needs/ Instruction/ Instructional Materials/ *Nutrition/ Nutrition Instruction/ *Population Education/ *Secondary School Science

Identifiers: Elementary Secondary Education Act Title III/ ESEA Title III

This unit attempts to respond to the increasing problems of malnutrition in the United States seemingly related to rising market prices, low quality foods attracting the consumer dollar and the shrinking number of students studying nutrition in our schools. It is designed to enable secondary school students to evaluate food selections, understand the problems connected with malnutrition and consider the effort needed to maintain our present level of nutrition as populations continue to grow. Four basic topics are presented: (1) Basic Nutritional Needs of Humans; (2) Scientific Techniques Used in Determining Nutritional Requirements; (3) Processing, Preservation and Future Supplies of Food; and (4) Prenatal Development and the Role Played by Nutrition. Optional areas are presented including consumer tips and the pet population explosion. The culminating activity is a field trip to a research laboratory specializing in pet and zoo animal nutrition. Teaching aid materials include behavioral objectives of the unit, a suggested time line, appropriate methodologies, suggested equipment and evaluative instruments. (MLB)

Identifiers: Elementary Secondary Education Act Title III/ ESEA Title III/ Individualized Instruction in Family Living/ Unipacs

Through a series of sequential statements, the booklet reconstructs the development of the Individualized Instruction in Family Living Project. Intended for elementary and secondary level students, the project's main objectives are: (1) to improve student self-image and understanding; (2) to acquaint students with value clarification; and (3) to teach goal setting techniques. The program, designed by a group of professionals and interested citizens, consists of the development of classroom curriculum materials, analyzed and

developed by educators, and the establishment of a teacher training program. A survey of teachers, parents, and students determines questions to which students need answers. Information which answers these questions is arranged into individualized programs and packages called unipacs, which are made available to school and community. In an effort to share with others what they have learned, the project developers will visit and consult with individual school districts. Several available publications which treat the project are listed. The titles of the 29 unipacs with designated grade level are also listed. (Author/RM)

Identifiers: Health Delivery Systems

PL89-749, passed in 1966, included a number of provisions for increasing participation of consumers in the improvement of the health care delivery system, including development of training programs to equip consumers for participation in the health planning process. The evaluation attempts to ascertain the direct effect of training programs on consumer participation by assessing differences in program content and structure, identifying training patterns and the resulting attitudinal and behavioral changes in the consumer trainees. It was found that format is a significant factor affecting trainee behavior, and that weekend retreat formats were associated with favorable outcomes such as attendance, program completion, trainee involvement in program planning, and increased health activities after the programs ended. A majority of trainees were women over 30; if young consumers are to be reached by these programs the training content must be altered to reflect their needs. Communication difficulties between consumers and providers due to educational, social, and economic status differences were clearly an obstacle. (NTIS)

Drug Abuse Prevention: Report of the Temporary State Commission to Evaluate the Drug Laws.

Betros, Emeel S.; And Others

New York State Legislature, Albany.

Publ. Date: 74 Note: 299p.; New York State (1974) Legislative Document No. 11

Descriptors: *Consumer Education/ *Drug Abuse/ Drug Education/ *Drug Legislation/ *Educational Problems/ Emotional Problems/ Family Life/ Health Services/ Learning Disabilities/ Prevention/ Self Concept/ Social Action/ *Social Problems/ Socioeconomic Influences/ Special Health Problems/ State Legislation

Identifiers: New York State

The findings and recommendations of the Temporary State Commission to Evaluate the Drug Laws, set forth in the introduction to this report, are based on questionnaires to prevention experts and professionals responsible for child and adolescent care, on communications with community agencies, and on statewide public hearings. The committee found that few positive results could be ascertained for the State's programs, that use of cocaine and alcohol have rapidly increased among the young, that the immediate cause of drug abuse is poor self esteem, and that funding for drug abuse programs should be redirected toward learning, health, and emotional problems. Chapters on the drug situation in New York State and on concepts in drug abuse prevention open the explication of the committee's findings. Recommendations in the areas of education and health, delivery of community health and mental health services to children and families, the media, and alternatives to drug abuse programs are enlarged on in separate chapters of the report. Commission bills to establish a New York State Driving Under the Influence of Alcohol Countermeasure Program and to redefine prevention of drug and alcohol abuse are appended along with a list of 1973 hearing witnesses. Family Health Curriculum Guide. Advanced Unit. Draft.

Edwards, Helen; Loftis, Florence

Clemson Univ., S.C. Vocational Education Media Center.; South Carolina State Dept. of Education, Columbia. Office of Vocational Education.

Publ. Date: 72 Note: 33p.; For other guides in the unit, see CE 001 266-272 and CE 001 274-277

Descriptors: Behavioral Objectives/ Consumer Education/ Curriculum Development/ *Curriculum Guides/ Educational Resources/ Evaluation Methods/ *Family Health/ *Grade 10/ *High School Curriculum/ Homemaking Education/ Teacher

Developed Materials

Identifiers: South Carolina

The family health guide, part of a consumer and homemaking education unit, was developed in a 3-week curriculum workshop at Winthrop College in June 1972. The identified objectives and learning experiences have been developed with basic reference to developmental tasks, needs, interests, capacities, and prior learning experiences of students. The concepts examined in the advanced unit for grade 10 include: family health factors, major health problems, home care of the sick, health services and costs for the family, safety measures in the home, and career opportunities in health. Under each concept, three columns list behavioral objectives, learning and evaluation experiences, and teaching resources. (AG)

Workshop on Patient Education Programing Proceedings (Marriottsville, Maryland, April 30-May 3, 1973).

Health Resources Administration (DHEW/HS), Bethesda, Md.; Maryland State Dept. of Health and Mental Hygiene, Baltimore.

Report No.: DHEW-HRA-74-4002

Publ. Date: 73 Note: 95p.

Descriptors: *Consumer Education/ Cost Effectiveness/ *Educational Programs/ *Health Education/ *Health Programs/ *Program Development/ Speeches/ Workshops

Identifiers: Patient Education

The workshop was attended by 72 participants representing a variety of health agencies. The disciplines they represented included medicine; nursing, hospital, and public health; psychology; nutrition and dietetics; social work; rehabilitation; occupational, physical, and speech therapy; volunteer and juvenile service work; counseling; training; health education; and health advocacy. The goal of the workshop was to provide guidelines and assistance for the development and refinement of specific patient education plans in a variety of health settings in the State. Eight speeches were presented concerning the concept of patient education, program planning, communication, educational methods and materials, cost effectiveness and evaluation. Group sessions were conducted in between plenary sessions. Each of the 23 multidisciplinary teams developed plans for selected target populations. Summaries of their reports indicate: the desirability of using a variety of educational methods and materials, the need for staff training, and the techniques for evaluating the success of the educational efforts. Palm Beach County Health Department Migrant Project, Annual Progress Report, 1972-73.

Palm Beach County Health Dept., West Palm Beach, Fla.

Sponsoring Agency: Community Health Service (DHEW/PHS), Bethesda, Md.

Report No.: CHS-04-H-000213-09-0

Publ. Date: Apr 73 Note: 37p.

Descriptors: *Dental Health/ Environment/ Evaluation/
*Health Education/ *Medical Services/ *Migrant Health Services
/ *Nursing/ Objectives/ Tables (Data)

Identifiers: *Florida/ Palm Beach County

Information about the Palm Beach County Health Department Migrant Project for 1972 is presented in this annual progress report. Information on services provided by the Project as prescribed by the Migrant Health Branch is included. Major topics include program objectives, relationships and contributions, staff orientation and training, a general appraisal of the year's achievements, medical services, dental services, nursing and outreach services, environmental health services, health education services, the Consumer Policy Board, and Third Party Reimbursement. The evaluation section of the report notes that there were increases in the number of migrants receiving service in clinics and private physicians' offices, in dental services, in the number of camp inspections made by the Environmental Health Services, and in the number of services provided by the Health Education staff. Descriptors: *Economic Factors/ *Federal Legislation/ Infant
Mortality/ *Mexican Americans/ *Migrant Health Services/
*Migrant Welfare Services/ Nutrition/ Seasonal Laborers

The Public Health Service Act was amended in 1962 to authorize grants to establish family health service clinics for domestic agricultural migratory workers and to improve the health conditions of these workers and their families. Approximately 100 programs currently provide migrant health services. As a result of the low level of funding of these programs, it was administratively determined by the Department

of Health, Education, and Welfare that hospital costs would not be covered by the Migrant Health Program and inadequate funding has made it difficult to provide services that are essential to a comprehensive care facility. It was found that 4 areas need legislative attention: the inadequacy of the funding level, the need for earmarked hospital funds, the need to reaffirm Congressional commitment to consumer participation, and the need to develop a strategy for integrating migrant workers into a larger health care delivery system if such should develop. Document Not Available from EDRS.

Descriptors: *Behavioral Objectives/ *Elementary School Students/ Foods Instruction/ Health/ *Health Education/ Instructional Programs/ Kindergarten Children/ Measurement/ Measurement Techniques/ *Nutrition/ *Nutrition Instruction/ Publications

This publication contains 24 objectives and related evaluation items for grades K-6. The collection is organized into the following categories: daily food choices, food processing, consumer education, nutrients from food, nutrients and disease, storage preparation methods, food in man's environment, and table manners. Three elements--the objective, six measurement items, and means of judging the adequacy of student responses--are included for each objective in the collection. Each objective is stated in operational terms and is identified by a category and a sub-category which serve to limit and define it. The behavioral aspect as well as the content of each objective have been carefully selected as a means of requiring the student to master basic concepts of nutrition. The complete collection requires acquisition of a wide range of behaviors; some objectives require only knowledge recall, while others require the student to apply his knowledge and/or analyze given problems. Beauty Products and the Consumer.

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development.

Publ. Date: 72 Note: 89p.

Descriptors: *Consumer Economics/ *Consumer Education/ *Cosmetology/ Health/ *Health Education/ Health Facilities

GRADES OR AGES: High school. SUBJECT MATTER: Consumer education especially as it concerns the consumer's desire for beauty. Included are considerations of cosmetics, health spas, reducing salons, wigs, and jewelry. ORGANIZATION AND PHYSICAL APPEARANCE: The guide is discursively organized through the topics listed above. The physical appearance of each page is three columns; they are labeled "Understandings (Desired)," "Suggested Pupil and Teacher Activities," and "Source."

OBJECTIVES AND ACTIVITIES: Under the column heading "Suggested Pupil and Teacher Activities" are listed sample teacher questions, random ideas, and possible assignments. INSTRUCTIONAL MATERIALS: Under the column heading "Source" are listed reports, books, and articles, some of them referring specifically to the listed activities and some of them serving as recommended readings. STUDENT ASSESSMENT: No provisions indicated. OPTIONS: The guide is suggestive only. (JA)

Sponsoring Agency: National Institutes of Health (DHEW), Bethesda, Md. Bureau of Health Manpower Education.

Publ. Date: Mar 72 Note: 158p.; Proceedings of the National Student Conference on Health Manpower, Chicago, Illinois, March 11-12, 1972

Descriptors: *Conference Reports/ *Health Education/ *Health Occupations/ Health Personnel/ *Higher Education/ Manpower Needs/ Models/ Staff Utilization/ *Student Attitudes

Identifiers: *National Student Conference on Health Manpower

This document summarizes the proceedings of the National Student Conference on Health Manpower, Chicago, March 1972. Following a staff report on the conference proceedings, student research papers on workshop topics are presented. These papers concern health profession recruitment and retention with consideration of general minority and sex-biased problems, the consumer-community relationship and provider responsibility, regulations and restrictions as health manpower barriers, health team alternative practice models, a summary of interdisciplinary student health projects, health manpower 1967-1972, health professions mobility, technologic change and medicine, health professions education, and maintaining quality of care in the health professions. Student workshop recommendations and conference caucus statements are included. (MUM)

The Consumer and His Health Dollar: One of a Series in Expanded Programs of Consumer Education.

New York State Education Dept., Albany, Bureau of Secondary Curriculum Development.

Publ. Date: 72 Note: 80p.

Descriptors: *Consumer Education/ Economic Education/ *Health Education/ *Health Guides/ Secondary Grades/ Teaching Guides/ Units of Study (Subject Fields)

Designed as one of a series of modules in consumer education this booklet focuses on health problems from the consumer angle. It is designed to supplement the comprehensive health strands published by the New York State Education Department, and to be used as materials for an elective course. The module is constructed so that the student can achieve the following objectives: be able to state major achievements and unsolved problems in the health field; know how to seek qualified medical care services; learn to eat wisely, and avoid the use of unnecessary food supplements; develop a healthy skepticism about advertising claims for over-the-counter drugs; cut costs in shopping for drugs; become familiar with government programs for medical care services; state how Federal agencies operate to provide consumer protection; use sources of consumer information in the health field; and give thoughtful consideration to proposals now being offered for change. Prospects for Simulation Gaming in Health Planning & Consumer Health Education.

Doob, P. A.

Publ. Date: 72 Note: 78p.

Descriptors: Comprehensive Programs/ *Health/ Health Education/ Human Services/ Instructional Media/ *Management Games/ *Models/ *Planning/ *Simulation/ Teaching Techniques

This paper explores a technique, simulation gaming, used by management and by planning educators in several fields for approaching some of the elements of human relations matters and concepts. It seeks to survey the development of this method by tracing the development of the simulation gaming technique in symbolic simulation. Some of its utilities and liabilities are then identified. Simulation game topology is discussed, after which the educational and research potential of this gaming method is examined together with simulation game artifacts, cautions, and remedies for educational and research applications. Applications of the technique to health planning and consumer health education objectives generally are suggested, and a health maintenance game structure is outlined. The game model focuses on problem areas most specifically relevant for those in the comprehensive health planning sphere, rather than limited to health planning education applications per se. References conclude the work. (BL)

Prevalence of Harmful Health Misconceptions in Colorado High School Seniors.

Stephens, Gale Elouise

Publ. Date: 70 Note: 127p.

Available from: University Microfilms, 300 North Zeeb Road, Ann Arbor, Michigan 48106 (Order No. 71-5935, MF \$4.00, Xerography \$10.00)

Document Not Available from EDRS.

Descriptors: Beliefs/ Conflict/ *Fundamental Concepts/ *Health/ *Health Education/ *Research/ Secondary Education/ Secondary School Students

Identifiers: Colorado

This research study was undertaken to determine prevalence of health misconceptions of twelfth grade students in each of three sizes of public high schools in the state of Colorado. Also, whether prevalence of misconceptions was related to factors of: sex, grade-point average, level of father's education, level of mother's education, father's occupation, and public high school formal health instruction. Procedure involved compilation of harmful health misconceptions in nine areas of health (personal health, nutrition, rest and exercise, care and prevention of disease, habit-forming substances, first aid, consumer health, family living, and mental health) and administration of a Health Opinionnaire to 349 high school seniors. Findings led to the following major conclusions: (1) students subscribed to many health misconceptions, suggesting that secondary education needs to do much in the area of health education, (2) health misconception scores tended to decrease as size of school increased, and (3) percentage of incorrect responses was greatest in areas of consumer health and nutrition and lowest in areas of habit-forming substances and rest and exercise. This suggests a need for health education to sell the public the truth in consumer health knowledge as effectively as they have been sold by advertisers and media sources. (Author/BL)

Health. An Instructional Guide.

Los Angeles City Schools, Calif.

Report No.: CVTE-N-118-X-LEA

Note: 380p.; PAES Collection

Descriptors: Bibliographies/ Course Content/ *Curriculum Guides/ Educational Objectives/ Evaluation Methods/ Grade 11/ Grade 12/ *Health Education/ Instructional Materials/ Learning Activities/ Resource Materials/ *Secondary Grades/ Teaching Guides

This curriculum guide has been prepared to assist senior high school teachers in providing a 1-semester course in health for Grade 11 or 12. Developed by teachers, health

coordinators, school health services personnel, and representatives of 23 community health organizations and agencies, the guide first presents an overview of the basic concepts and understandings to be developed in each of the seven units, which cover such topics as nutrition, narcotics, alcohol, first aid, and consumer protection. Contained in each unit are: (1) a discussion of the scope of the unit, including unit objectives and suggested time allotments which range from 1 to 4 weeks, (2) an outline of the content which is correlated to learning activities and resources, and (3) an explanation of suggested evaluation procedures, including tests and inventories, classwork performance, self-appraisal, and teacher observations. A bibliography of books for each unit is provided. (SB)

Impact of the Expanded Food and Nutrition Education Program on Low-Income Families: An In-depth Analysis. Agricultural Economic Report Number 220.

Feaster, J. Gerald

Economic Research Service (DOA), Washington, D.C.

Publ. Date: Feb 72 Note: 78p.

Descriptors: Consumer Education/ Dietetics/ Eating Habits/ Educationally Disadvantaged/ Expenditures/ Family Characteristics/ *Federal Programs/ *Health Education/ *Low Income/ Nonprofessional Personnel/ *Nutrition/ Poverty Programs/ Program Evaluation/ Socioeconomic Status/ *Urban Population

This report evaluates the Expanded Food and Nutrition Education Program (EFNEP) of the Extension Service of the Department of Agriculture. About 184,000 low-income families participated in the program prior to October 1969. A national sample of 10,500 showed that family incomes were very low--less than 2,700 dollars, of which more than a third was spent for food. Most families were urban, members of minority groups, and had homemakers with relatively low educational levels. Food consumption practices of homemakers upon entering the program indicated that many families had poor diets. After six months of EFNEP participation, substantial improvements in food knowledge and consumption practices were evident, particularly in the consumption of foods in the milk and fruit-vegetable groups. Homemakers with the poorest diets showed more improvements than those who had better initial diets. Homemakers receiving more visits from program personnel, a measure of intensity of program instruction, increased their consumption of foods in the milk and fruit-vegetable groups more than homemakers receiving fewer visits. Bureau No.: BR-9-A-067

Grant No.: OEG-1-9-090067-0119(010)

Publ. Date: Dec 71 Note: 579r.

Descriptors: Curriculum Development/ *Curriculum Guides/ *Curriculum Planning/ *Elementary Schools/ *Health Education/ *Health Guides/ *Health Programs/ *Secondary Schools

This project was designed to serve a need recognized by individuals in the Massachusetts Department of Education. With increased interest and requests for assistance in program planning in health related areas, a need for curriculum guidelines in health education was identified. This report is divided into two parts. Part I contains the findings of a survey questionnaire designed to identify the status of health education in the public schools. Further examination and identification of the health needs of school age children and the population in general provided justification for curriculum development. Part II of the report consists of a curriculum guide which was designed for local planning of health education programs for the 70's. The guide is to serve as a basis for local school systems to plan their own individual programs. It is organized into four broad areas: physical health, mental and social health, consumer and environmental health, and safe living. It is structured to be used at the early childhood, middle grades, junior high and senior high levels of instruction. (Author/BW)

Working Papers on Rural Community Services.

Leadley, S. M., Comp.

Sponsoring Agency: Department of Agriculture, Washington, D.C.

Publ. Date: Mar 72 Note: 100p.; Papers prepared for the National Workshop on Problems of Research on Delivery of Community Services in Rural Areas, Lincoln, Nebraska, December 13-16, 1971

Descriptors: Charts/ *Community Services/ Consumer Economics / Economic Factors/ *Evaluation/ Health Services/ Housing/ Manpower Utilization/ *Measurement/ Research Design/ *Rural Areas/ *Rural Urban Differences/ Social Development

The papers in this document represent statements prepared by scholars involved in various stages of 4 multi-state regional research projects on rural community services and presented at

a 1971 national workshop on research problems in delivery of community services. The 2 major foci of these papers are (1) problems of measurement and assessment of adequacy of community services and (2) organization of service delivery systems. The 8 papers included are Problems of Measurement and Assessment of the Adequacy of Community Services; A Naive Viewpoint; Adequacy of Community Services: A Measurement Problem; Theoretical Concerns in the Measurement of Adequacy of Community Services; and How to Assess Them in the Rural Areas; Rural Development and the Quality of Life in the Rural South; Concepts and Indicators in the S-79 Regional Project; Some Methodological Considerations for Rural Community Services Research; Organization of Public Service Delivery Systems for Rural Areas; Some Relevant Concerns and Issues in Research on Personal Health Delivery Systems with Special Emphasis on Nonmetropolitan Areas; and, Housing Quality: Measurement and Assessment. Annual Progress Report, June 1, 1969-June 1, 1970. Colorado Migrant Health Program.

Colorado State Dept. of Health, Denver.

Publ. Date: 70 Note: 206p.

Descriptors: *Annual Reports/ Clinics/ Cultural Factors/ Dental Health/ *Environmental Influences/ Home Economics Education/ *Medical Services/ *Migrant Health Services/ Migrant Housing/ Program Development/ Public Health/ Socioeconomic Influences/ *Tables (Data)

Identifiers: Colorado

Narrative and statistical data on the Colorado Migrant Health Program are presented in this 1969-70 annual progress report. The objectives of the program were to develop, augment, and improve health care services to migrant agricultural workers and their families; to develop, expand, and improve existing programs; and to establish and maintain lines of communication with other agencies involved in the health, education, and welfare of migrants. Separate sections of the report cover the following areas: consumer reaction, dental care, medical care, hospitalization policy, public health nursing care, home economics consultation, and environmental health services. Some of the major problems mentioned are a shortage of trained personnel, inadequate program funding, and the short time that the migrant workers stay in any particular region. It is noted that the mobility of the migrant workers makes follow-up care very difficult. The types and amounts of care given to migrants during the reporting period are presented (by counties) in both narrative and tabular form. (PS)

Elementary School Health Education Curriculum Guide.

Texas Education Agency, Austin.

Report No.: Bull-715

Publ. Date: 71 Note: 209p.

Descriptors: Behavioral Objectives/ *Comprehensive Programs/ *Conceptual Schemes/ *Curriculum Guides/ *Elementary Grades/ Fundamental Concepts/ *Health Education/ Instructional Materials/ Learning Activities/ Teaching Guides

Continuity in the development of a comprehensive health education program for kindergarten through sixth grade is the goal of this curriculum guide for teachers. It is designed to encourage discussion and build concepts rather than to give specific information. Ten basic instructional areas and accompanying central concepts are identified: (1) community health; (2) environmental health and safety; (3) prevention of communicable diseases; (4) chronic and degenerative diseases; (5) consumer health; (6) health and fitness for daily living; (7) growth and development; (8) sex education for family living; (9) the use and abuse of tobacco, alcohol, and other drugs; and (10) nutrition. Each content area is divided into two levels, primary and intermediate, and outlines the major concept, subconcepts, behavioral objectives, content, motivating questions, and suggested learning experiences. Sources of print and non-print materials are appended. (BL)

Services; The Elderly Indian; Legal Aid and the Urban Aged; Long-Term Care for Older People; The Poor Elderly; Rural Older People; Spanish Speaking Elderly (Spanish); Spanish Speaking Elderly; The Religious Community and the Aged; Physical and Vocational Rehabilitation; Volunteer Roles for Older People; and Youth and Age. The role that education plays in the part of the older adult is presented in relation to the following: bilingual and ethnic concerns; expansion of educational programs; funding programs; educational policy; increasing influence of older persons; materials, methods and curriculum; mass media; preretirement; professional preparation; and the status of the Administration on Aging. Hearings Before the Select Committee on Nutrition and Human Needs of the United States Senate, Ninety-Second Congress, First Session on Nutrition and Human Needs. Part 8B--Food Distribution Program.

Congress of the U.S., Washington, D. C. Senate Select Committee on Nutrition and Human Needs.

Publ. Date: Sep 71 Note: 120p.; Hearings held Washington, D.C., Sept 22-23, 1971

Available from: Superintendent of Documents, Government Printing Office, Washington, D.C. 20402 (\$0.60)

Descriptors: Economically Disadvantaged/ Federal Aid/ *Federal Programs/ *Federal State Relationship/ Food Stores/ Health Programs/ Nutrition/ *Program Administration/ *Program Costs/ State Federal Support

Identifiers: California/ *Food Distribution Program/ Missouri/ New York/ Puerto Rico

This is the third hearing in a series of four conducted to exercise congressional oversight of the Food Distribution Program of the Department of Agriculture. The following witnesses presented testimony, statements, and exhibits pertinent to this purpose: Honorable Efrain Santiago, Secretary of Social Services, Commonwealth of Puerto Rico; Senator Eagleton of Missouri; Proctor N. Carter, Director, State Division of Welfare, Missouri; David McCullough, Director, Food Distribution Program, San Diego County, California; Warren H. Breland, Executive Director, Freeport, Long Island Economic Opportunity Council, Inc.; and, Richard Lyng, Assistant Secretary, Consumer and Marketing Service, Department of Agriculture. Appendix One, items pertinent to the hearing of September 22, 1971, includes such items as selected data on the Food Distribution Program, a study as of July 1971, Long Island Peoples Association (LIPA) Food Centers--store locations, and an organizational chart of the LIPA. Appendix Two, items pertinent to the hearing of September 23, 1971, includes such items as field review process, operating expense funds, post office issuance, and a letter of September 16, 1971 from Department of Social Welfare, County of Ventura, California. Appendix Three (letters and articles of interest) includes, as information previous to the hearings, letters submitted by Senator Percy, the Office of Emergency Preparedness, the Department of Agriculture, and the Agriculture Research Service. Paraprofessionals and Their Performance: A Survey of Education, Health, and Social Service Programs.

Gartner, Alan

Publ. Date: 71 Note: 152p.; Praeger Special Studies in U.S.

Economic and Social Development

Available from: Praeger Publishers, 111 Fourth Avenue, New York, N.Y. 10003 (no price quoted)

Document Not Available from EDRS.

Descriptors: Educational Programs/ *Health Services/ *Nonprofessional Personnel/ *Social Services/ Subprofessionals / *Surveys/ *Task Performance/ White Collar Occupations

This book is primarily concerned with the quality of professional human services. To this topic are addressed two basic questions. First, what does the paraprofessional do? And second, to what effect does this quality relate to the consumer of these services? The book includes seven chapters, in which the following fields are considered: education, mental health, social work, health, and police and corrections. The multiplicity of evidence derived from the studies conducted leads to the conclusion that paraprofessionals play an important role as service agents and contribute positively to the well being of consumers in highly significant and often unique ways. This study aims to help teachers work effectively with low-income families by: (1) developing an understanding of the circumstances and life styles of Negroes, Mexican Americans, Puerto Ricans, and other minority groups, and (2) utilizing reality-oriented resource units in family health and safety, homemaking skills, consumer education, and money management. The report is divided into two parts. Part I includes: (1) a discussion of family income distribution in the United States in 1960, using charts and graphs to illustrate percentages, (2) an analysis of changes in low family income in the United States during the period 1959-69, with special attention paid to race and sex, (3) a depiction of the life-styles of low-income families, with a discussion of the values common to this group, and (4) a bibliography of reading materials and films relating to the overall subject. Part II contains five selected curriculum units, all dedicated to improving the educational level of these families. These units are entitled as follows: (1) Family Health and Safety, (2) Consumer Education and Money Management, (3) Homemaking Skills: Food and Clothing, (4) Family Planning and Family Relationships, and (5) The Family and the Community. Health Education Guide to Better Health 1966, Grades 7-12.

Speilholz, Jess; And Others

Washington State Office of Public Instruction, Olympia.

Publ. Date: 66 Note: 619p.; Working Copy

Descriptors: *Curriculum Guides/ Fundamental Concepts/ *Health Education/ Instructional Materials/ Learning Activities/ *Resource Materials/ *Secondary Grades/ Teaching Guides

Prepared with the aim of strengthening health education in Washington schools, this working copy of a curriculum provides resource information for teachers in grades

7-12. It is sequentially oriented with materials related to students' health needs and interests. Thirteen units of instruction are outlined: alcohol, anatomy and physiology, community health, consumer health, dental health, disease control, drug education, family health, health careers, heredity and environment, mental health, nutrition, and safety education. Individual units present an overview of the topic and a list of desired competencies. Each competency is then described in detail, appropriate concepts listed, and sample learning experiences and resources to develop the concept indicated. This information is presented for both junior high and senior high levels. A list of resources (books, pamphlets, magazine articles, and films) supplements the unit. In addition, the guide defines health instruction, indicates the place and need for health education in the school, and suggests possible use by school districts and individual teachers. A general bibliography for teachers is also included. (BL)

Descriptors: Aerospace Technology/ Agriculture/ Athletics/ Business Education/ Catalogs/ Communications/ Conservation Education/ Consumer Education/ Driver Education/ *Films/ Fine Arts/ Guidance/ Health Education/ History/ Home Economics/ Industrial Arts/ Instructional Films/ Music/ Religion/ *Resource Materials/ Safety/ Sciences/ Social Problems/ Youth Clubs

This guide is a complete directory of nearly 5,000 films available free of cost (except, in most cases for return postage) in the United States. The major portion of the guide lists films alphabetically within each of these categories: accident prevention and safety, aerospace education, agriculture, arts and handwork, business education, clubs and scouting, communications and transportation, conservation, consumer education, driver education, entertainment, geography, guidance, health and social hygiene, history, home economics, industrial arts, music, religion, schools and educational opportunities, science, social problems, and sports. Each listing includes a two- or three-sentence synopsis of the film, its release date, running time, and print size, as well as the source where it may be obtained. Other indexes list the films by title and subject. A source and availability index gives addresses of sources and guidelines for ordering. Sources having films available in Canada are separately listed. (JK)

Secondary School Health Education Curriculum Guide.
Texas Education Agency, Austin.
Report No.: Bull-691
Publ. Date: 70 Note: 343p.

Descriptors: *Curriculum/ *Health/ *Health Education/
*Secondary Education/ Secondary School Teachers/ *State
Curriculum Guides

This guide for instruction in grades 7 through 12, developed with the help of 27 specialists in all the school health disciplines, views health as the embodiment of total man, his physical, psychological and social dimensions. A conceptual approach to teaching health is utilized, wherein a concept, once understood, can be retained even as new facts are constantly uncovered. Ten content areas, each having a major concept, are identified: (1) consumer health; (2) prevention of communicable disease; (3) chronic and degenerative diseases; (4) environmental health and safety; (5) community health; (6) growth and development; (7) health and fitness for daily living; (8) nutrition; (9) use and abuse of tobacco, alcohol and drugs; and (10) sex education for family living. A short section describes how to utilize the curriculum. For each content area, motivating questions, selected relevant learning activities and a bibliography are included. (TL)

Health Education Guide K-12.
Parsippany - Troy Hills Board of Education, Parsippany, N.J.
Publ. Date: 70 Note: 181p.

Descriptors: *Curriculum/ Educational Programs/ Elementary
Grades/ *Health Education/ Instruction/ Secondary Grades/
*Sequential Approach/ *Teaching Guides/ *Unit Plan

Written to help teachers improve health practices of their students, this guide provides a sequential unit approach to health education in grades K through 12. Primary grades 1-6 have suggested units in personal health, nutrition, community health, first aid and safety, consumer health, and mental health. Secondary grades 7-12 consider in addition: drug abuse and education, human sexuality, family life, exercise and the human body, formation of habits, social and emotional maturity, communicable diseases, social services, and health careers. Each grade level lists major concepts or subject areas accompanied by activities and audio visual materials suitable for use in reinforcing the concept. Space is furnished for note taking next to each suggestion. Supplementary reference materials and sources of free or low cost health and safety items for teachers use are supplied in the appendix. The Role of Consumers in Planning and Evaluation of College Health Programs.

Remer, Robert B.

Geomet, Inc., Rockville, Md.

Publ. Date: 30 Apr 71 Note: 30p.; Paper presented at the American College Health Association Convention in San Francisco, California, April 27-30, 1971

Descriptors: College Planning/ *Colleges/ *Cooperative
Planning/ Evaluation/ *Health Services/ *Medical Services/
Social Change/ *Student College Relationship/ Student
Personnel Services

This report presents the thesis that most college health services will have to undergo critical reexamination and drastic changes before students can rightfully participate as consumers and before effective planning becomes standard operating procedure. The two basic areas where these changes will have to occur are: (1) in consideration and treatment of the student as a dues paying consumer, along with all the other members of society; and (2) in far bolder plans for consumer participation, comprehensiveness, and planning mechanisms than are now the case in most college communities. In addition, the concept of consumer participation is explored to reveal that there are gaps between practice and promise not only on college campuses but in the whole health care system. In addition, the nature of health planning and evaluation is explored to reveal that the most effective planning process is not always harmonious, that negotiation is the language, and that planning and evaluation necessarily presume medical, social, and political dimensions. Framework for Health Instruction in California Public Schools Kindergarten Through Grade Twelve.

Fodor, John T.; And Others

California State Dept. of Education, Sacramento.

Sponsoring Agency: Bureau of Elementary and Secondary Education (DHEW/OE), Washington, D.C.

Publ. Date: 70 Note: 53p.

Descriptors: Behavioral Objectives/ *Concept Formation/ *Curriculum Development/ Elementary Grades/ *Health Education/ *Health Guides/ Secondary Grades/ *Sequential Approach/ State Curriculum Guides

Identifiers: ESEA Title V

This guide has been designed to assist school districts in developing a comprehensive program of health instruction from kindergarten through grade twelve. It is a framework that provides structure for the development of a sequential, but flexible health education curriculum to meet local needs and provide for the changing health problems facing children and youth. Since it is a guide for local curriculum development and not a course of study, learning opportunities, methods of instruction, and suggested resources are not included. Health information is presented in such a manner that it builds around health concepts and thus allows new research to be integrated into the program as it becomes available. Each major concept has a set of correlating grade-level concepts with accompanying sample objectives and content. Content areas cover consumer health, mental/emotional health, drug use and misuse, family health, oral health-vision-hearing, nutrition, exercise-rest-posture, diseases and disorders, environmental health hazards, and community health resources. For evaluating instruction in terms of specific goals, behavioral objectives are included for each grade-level concept and provide specific illustrations of ways in which the learner may demonstrate his competencies. This work was prepared under an ESEA Title V contract. (BL)

Available from: Essandess Special Editions, 630 Fifth Avenue, New York, New York 10020 (\$2.00 PB, \$5.95 HC)

Document Not Available from EDRS.

Descriptors: Amputees/ Consumer Education/ *Cooking Instruction/ *Guidelines/ Handicapped/ Homemaking Education/ *Homemaking Skills/ Home Management/ *Older Adults/ Prostheses / Rehabilitation/ Special Health Problems

Specific techniques to alleviate difficulties encountered in routine kitchen tasks are described for the elderly and the handicapped, particularly those persons with upper extremity weakness or amputees, arthritis, incoordination, wheelchair confinement, loss of sensation, and limited vision. Helpful information is provided in areas of kitchen planning and storage; the selection of small appliances and kitchen tools; hints on serving, cleaning up, shopping, nutrition, and meal planning; and simplified measures with eating aids. Recipes and cooking instructions are provided for numerous main dishes, vegetables, salads, soups, sandwiches, beverages, and desserts. Lists of related references, service agencies, and sources for kitchen equipment and tools provide additional information. Photographs accompany the collection of helpful hints for the handicapped homemaker. (RD)

Health Curriculum Materials: Grades 10, 11, and 12. Strand IV, Environmental and Community Health; Consumer Health. Special Edition for Evaluation and Discussion.

Van Hooft, Gordon E.; And Others

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development.

Publ. Date: 69 Note: 76p.

Descriptors: *Community Health/ *Consumer Education/ Curriculum/ Curriculum Design/ *Curriculum Guides/ *Environmental Education/ Grade 10/ Grade 11/ Grade 12/ *Health Education/ Health Guides/ Health Programs/ Instructional Materials/ Secondary Education/ Secondary Grades

This publication contains curriculum suggestions for teaching Environmental and Community Health - Consumer Health for grades 10, 11 and 12. Emphasis is placed on the psychological dimension of contemporary quackery and pseudo-scientific practices, and sources of health information and health counsel. In general, the grade 10 through 12 materials provide students with experiences that will enable them to function as intelligent and discriminating adult health consumers. Outcomes that are expected include: 1) becoming increasingly aware of the forces which influence their purchasing power; 2) understanding the role of advertising as it affects consumer demands; and 3) developing an ability to critically analyze advertising and promotional appeals. The publication format of four columns is intended to provide teachers with a basic content outline, in the first column; a listing of major understandings and fundamental concepts which children may achieve in the second column; and information specifically designed for classroom teachers which should provide them with resource materials, teaching aids, and supplementary information, in the third and fourth columns. (KJ)

Health Curriculum Materials: Grades 7, 8, and 9. Strand IV, Environmental and Community Health; Consumer Health Education. Special Edition for Evaluation and Discussion.

Van Hooft, Gordon E.; And Others

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development.

Publ. Date: 69 Note: 48p.

Descriptors: *Community Health/ *Consumer Education/ Curriculum/ Curriculum Design/ *Curriculum Guides/ *Environmental Education/ *Health Education/ Health Guides/ Health Programs/ Instructional Materials/ Junior High Schools/ Secondary Education

This publication contains curriculum suggestions for teaching Environmental and Community Health-Consumer Health, for grades seven, eight, and nine. Outcomes desired at this level include: 1) being aware of the practice of health quackery and being able to recognize those traits that characterize the health fraud, his techniques, and his products; 2) to fully understand the hazards of health quackery and the reasons why quackery continues to flourish in our society; 3) having an awareness of the basic factors involved in consumer motivation and the significance of the teen-age consumer of health services and products; and 4) developing those insights and abilities that characterize intelligent and discriminating consumer health practice. The publication format of four columns is intended to provide teachers with a basic content outline in the first column; a listing of the major understandings and fundamental concepts which pupils may achieve in the second column; and information specifically designed for classroom teachers which should provide them with resource materials, teaching aids, and supplementary information, in the third and fourth columns. Hunger, U.S.A.: A Report by the Citizens' Board of Inquiry into Hunger and Malnutrition in the United States.

Publ. Date: 68 Note: 96p.

Available from: Beacon Press, Boston 02108 (BP 310, \$1.95)

Document Not Available from EDRS.

Descriptors: Depressed Areas (Geographic)/ Economic Disadvantage/ *Federal Programs/ *Food/ Health Services/ *Hunger/ Medical Services/ *Nutrition/ *Poverty Programs

Identifiers: Food Stamp Program/ Mississippi/ School Lunch Program/ United States Department of Agriculture

The findings of the Citizen's Board of Inquiry are that: (1) hunger and malnutrition affect millions of Americans and are increasing in severity each year; (2) infant deaths, organic brain damage, retarded growth and learning rates, increased vulnerability to disease, withdrawal, apathy, alienation, frustration, and violence result from hunger and malnutrition; (3) federal programs to alleviate the problem have by and large failed; and, (4) the policies of the agricultural committees of Congress and the Department of Agriculture have discriminated against the needs of the poor and the hungry in the interests of the agricultural producers. Topics covered in the report are bureaucratic non-response in Mississippi, the extent of hunger and malnutrition, analysis of food and welfare programs (comprising commodity distribution program, food stamp programs, consumer education programs, and public assistance program), and agricultural policy. The report includes recommendations proposed by the Board of Inquiry. (KG)

Selected Listing of Federal and Non-Federal Programs Relating to Allied Health.

Public Health Service (DHEW), Washington, D.C. Health Services and Mental Health Administration.

Publ. Date: 1 Apr 69 Note: 71p.

Descriptors: *Directories/ *Federal Programs/ *Financial Support/ *Health Occupations Education/ *Voluntary Agencies

In its February 1969 meeting, the National Advisory Council for Regional Medical Programs reaffirmed its position on recruitment and basic education--that Regional Medical Program funding is not to be used to replace existing sources of support and that other sources should be explored first. Therefore the Continuing Education and Training Branch of the Allied Health Section prepared this listing of resources for allied health education programs. Federal programs described include those of: (1) The Department of Health, Education, and Welfare, covering the National Institutes of Health, the Health Services and Mental Health Administration, Consumer Protection and Environmental Control, Social and Rehabilitation Service, and the Office of Education; (2) the Department of Labor; (3) the Department of Commerce; and (4) the Office of Economic Opportunity. The programs of 13 non-federal organizations are described, including information facilitating contact. Programs are indexed according to level of training and profession. Appended are listings of practitioner associations; regional offices of the Department of Health, Education, and Welfare, the Department of Labor, and the Office of Economic Opportunity; State agencies for vocational rehabilitation and State official responsible for supervision of health occupations education. Sponsoring Agency: Office of Education (DHEW), Washington, D.C. Bureau of Research.

Bureau No.: BR-6-2722

Grant No.: OEG-2-6-062722-2077

Publ. Date: Sep 69 Note: 24p.

Descriptors: Adult Education/ Community Surveys/ Health Occupations Education/ Information Dissemination/ Inservice Programs/ Interagency Cooperation/ *Research Coordinating Units/ Research Projects/ Teacher Education/ *Vocational Education

Identifiers: *West Virginia

This report covers the period from May 1967 when the Research Coordinating Unit was officially established, through August 1969. Consultative activities concerned such matters as surveys to determine educational needs, an interagency adult basic education and skill training project, graduate teacher education, and health occupations education. Information activities included the development and implementation of an information retrieval and dissemination system and provision of training sessions on the Educational Resources Information Center. Seventeen research projects initiated during the period studied such matters as attitudes toward vocational education, summer extended employment for home economics teachers, characteristics of undereducated adults, inservice needs of vocational educators, facilities utilization, criteria for establishing area schools, and curriculum in consumer education. Planning and development activities included a long-range follow-up study of adult basic education students and institutes for adult education teachers, school administrators, and guidance counselors. Proceedings of Nutrition Education Conference, February 20-22, 1967, Washington, D.C.

Agricultural Research Service (DRA), Washington, D.C.

Publ. Date: Jun 68 Note: 62p.

Available from: Government Printing Office, Washington, D.C. 20402 (\$0.45).

Descriptors: Community Health Services/ *Conference Reports/ Consumer Education/ Educational Programs/ Health Education/ Information Dissemination/ *Mass Media/ *Nutrition/ *Nutrition Instruction

Included are reports of present nutritional habits and problems in different communities, a discussion of psychological factors influencing consumer decisions about foods, and suggestions for the use of media such as magazines, newspapers, radio, and television to communicate basic nutritional concepts. Several new programs are reported concerned with inservice education of nurses, community education by radio and mail, and community education by counseling aides. New opportunities for communication are discussed as related to maternity and infant care projects; medicare, Federal food programs, projects financed through the Elementary and Secondary Education Act of 1965 and the Vocational Education Act of 1963, and the Head Start Project. The findings of discussion groups are summarized under the headings (1) Problems, (2) Means of improving nutrition practices, and (3) Suggestions for improved coordination of efforts in implementing nutrition education. K-12 Health Instruction Guide for Colorado Schools.
Colorado State Dept. of Education, Denver. Office of
Instructional Services.
Publ. Date: 69 Note: 57p.
Available from: Bradford Printing, 1824-46 Stout Street,
Denver, Colorado (\$1.50--No Charge to Colorado School
Districts).

Descriptors: Course Content/ *Course Objectives/ Curriculum
Guides/ *Health Education/ *Health Guides/ *Health Programs/
*Instructional Materials/ Manuals/ Program Content

This instruction guide was prepared in order to assist
schools in upgrading their health education programs. It is
organized in a K-12 sequence of appropriate concepts
indicating articulation between the primary, intermediate,
junior, and senior high levels, but it provides flexibility
for local school district scheduling. The format within each

unit includes: (1) specific aims and objectives, (2) an
outline of content, activities and experiences, and (3)
resource materials. The guide may be used as a lesson plan for
those teachers beginning new programs, or as a supplement to
already-existing health programs. It is recommended as
enrichment material for use at appropriate placement in the
over-all program of all schools because it embodies concepts
selected from the best guides available from the states and
cities, as well as from all of the references obtainable from
publishers in the field. Areas covered are safety, mental and
family health, personal health, alcohol, first-aid, sex
education, consumer health education, and health careers.

Program Descriptions/ Technological Advancement

Related to VT 007 894, "Report of the National Advisory
Commission on Health Manpower, Volume I," this volume presents
seven appendixes to that report. Appendix II concerns
variation in per diem direct hospital expenses. Appendix III
includes the reports of the panels on: (1) consumer role in
the health care system, (2) education and supply, (3) federal
use of health manpower, (4) foreign medical graduates, (5)
hospital care, (6) impact of new technologies, and (7)
organization of health services. Appendix IV describes the
Kaiser Foundation Medical Care Program. Appendix V presents
projections regarding the demand, supply, and price of health
services in 1975. Appendix VI reviews major studies of health
manpower requirements between 1930 and 1965. Appendix VII
discusses legal regulation of health personnel. Appendix VIII
presents extensive statistical tabulations of data on
physicians. (JK)

Optimal Health Care for Mothers and Children: A National Priority. A Report of Five Conferences Held during 1967.

Wells, Leora Wood

National Inst. of Child Health and Human Development, Bethesda, Md.

Publ. Date: 67 Note: 97p.

Descriptors: Community Involvement/ *Consumer Education/ Cooperative Programs/ *Exceptional Child Services/ Family Life Education/ *Health/ Interdisciplinary Approach/ Itinerant Clinics/ *Manpower Development/ Medical Treatment/ Nonprofessional Personnel/ Nurses/ *Personnel Needs/ Physicians/ Pregnancy/ Professional Education/ Professional Personnel/ Professional Training/ Program Planning/ Social Workers/ Training

Components of and creative planning for optimal health care for mothers and children are considered as well as changing patterns of health care. Applying what is known about the consumer and educating the consumer are discussed; also discussed are the role of the consumer in planning health care services, communication between doctor and patient, and the consumer as a partner in the health care team. Aspects of the health manpower described are the dimensions of the problem, possible redistribution of manpower and services, and functions of members of the health care team, including medical and non-medical professionals, other personnel, and interdisciplinary collaboration. Problems of designing effective training are treated; medical and behavioral science training for physicians and nurses, training in health care for social workers, and training and licensing other members of the team are considered; and making training relevant is discussed in terms of relating it to current medical and behavioral research findings, the health care system, and the realities of practice. Guidelines for future action and a list of conference participants are provided. (JD)

Resources for the Aging--An Action Handbook, a Catalogue of Federal Programs, Foundations and Trusts, and Voluntary Agencies that Assist Communities and Individuals to Meet the Needs of the Aging.

National Council on the Aging, Inc., New York, N.Y.; Office of Economic Opportunity, Washington, D.C. Community Action Program.

Publ. Date: Feb 67 Note: 323p.

Descriptors: Age/ Bibliographies/ Business/ Civil Rights/ Consumer Education/ Directories/ Employment/ *Federal Government/ Financial Services/ Food/ *Foundation Programs/

General Education/ Health Services/ Housing/ Job Training/ Military Personnel/ Nursing/ *Older Adults/ Program Planning/ Recreation/ Regional Programs/ *Resource Guides/ Rural Areas/ *Voluntary Agencies

Published to stimulate local, state, and national groups to develop programs to assist the aged, this catalog presents information about federal grants-in-aid and basic service programs that serve the old, and about foundations and trusts, and national voluntary agencies supporting programs for the aged or willing to assist local groups organizing programs. Resources are given for financial assistance, food and clothing, housing, health services, nursing care, employment and training, small business loans and services, general education and recreation, consumer education, civil rights, veterans' programs, planning, facilities and staffing, programs for specific regions or special groups, and for rural areas and small towns. For each program listed descriptions include the nature and purpose of programs, form and extent of assistance, requirements for eligibility, and where to apply. Field offices and regional addresses of government agencies are given. There are two bibliographies. (aj)

HEALTH AND NUTRITION LESSON PLANS AND STUDENT WORKSHEETS,
ADULT BASIC EDUCATION.

New York State Education Dept., Albany.

Publ. Date: 67 Note: 125P.

Descriptors: *Adult Basic Education/ Diseases/ Hygiene/
*Instructional Materials/ *Lesson Plans/ *Nutrition/ *Physical
Health/ Worksheets

Identifiers: FOOD DISCUSSION (TEACHING TECHNIQUE)

THIS MANUAL PROVIDES ADULT BASIC EDUCATION TEACHERS WITH
LESSON PLANS IN HEALTH AND NUTRITION. EACH LESSON CONTAINS
BACKGROUND MATERIAL OFFERING SPECIFIC INFORMATION ON THE
SUBJECT OF EACH LESSON, AIMS, LESSON DEVELOPMENT, AND TWO
STUDENT WORKSHEETS. DISCUSSION QUESTIONS ARE SUGGESTED TO
ENCOURAGE THE GREATEST POSSIBLE STUDENT INVOLVEMENT. THE TEN
LESSON PLANS ARE: SHOTS AND IMMUNIZATION-TETANUS, MEASLES,
TUBERCULOSIS, CANCER, VENEREAL DISEASE, KEEPING YOUR FOOD
SAFE, WHY DO WE NEED FOOD, IT'S UP TO YOU (MALNUTRITION), FOOD
IN THE MORNING, AND BEWARE (FOOD FADS). ADDITIONAL ELEMENTS
ARE FLIPCHARTS AND FILMSTRIPS, EACH WITH ITS ACCOMPANYING
TEACHER'S MANUAL. PRODUCTION OF INEXPENSIVE PHONOGRAPH DISKS
RELATED TO THE LESSONS IS PLANNED. SIMILAR PACKETS ARE NOW
AVAILABLE TO HELP TEACHERS OF ADULT BASIC EDUCATION IN THE
AREAS OF PRACTICAL GOVERNMENT, CONSUMER EDUCATION, AND PARENT
EDUCATION AND FAMILY LIFE. (AJ)

WORK WITH LOW INCOME FAMILIES HAS BEEN PART OF THE BASIC
PHILOSOPHY OF THE AMERICAN HOME ECONOMICS ASSOCIATION (AHEA)
SINCE ITS INCEPTION. A NATIONAL WORKSHOP WAS ATTENDED BY STATE
DEPARTMENT OF EDUCATION AND U.S. OFFICE OF EDUCATION
PERSONNEL, TEACHER-EDUCATORS, EXTENSION WORKERS, SOCIAL
WORKERS, AND PERSONS WITH RELATED INTERESTS. TEXTS OF THE
FOLLOWING SPEECHES ARE GIVEN--(1) "OUR CHARGE--THIS WEEK AND
TOMORROW" BY FRANCENA L. NOLAN, (2) "POVERTY AMIDST

AFFLUENCE--AN OVERALL VIEW OF POVERTY IN CONTEMPORARY AMERICAN
SOCIETY" BY PAUL A. MILLER, (3) "CHANGING THE CULTURE OF THE
DISADVANTAGED STUDENT" BY ALLISON DAVIS, (4) "CONSUMPTION
CHOICES AND POVERTY" BY OSCAR ORNATI, (5) "CHILD REARING AND
FAMILY LIFE PATTERNS FOR THE VERY POOR--IMPLICATIONS FOR HOME
ECONOMISTS" BY CATHERINE S. CHILMAN, (6) "VALUE ORIENTATION OF
A CULTURE OF POVERTY--THE SOUTHERN APPALACHIAN CASE" BY THOMAS
R. FORD, (7) "SOCIAL INSTITUTIONS" BY WILLIAM G. STUCKY, (8)
"POVERTY AND WELFARE" BY ALTON A. LINFORD, (9) "SOME
CHALLENGES OF CONTEMPORARY HEALTH NEEDS" BY PAULINE G. STITT,
M.D., (10) "THE NORTH CAROLINA FUND" BY WILLIAM H. KOCH, JR.,
(11) "HOMEMAKING EDUCATION FOR NEEDY FAMILIES IN THE DALLAS
COMMUNITY" BY JERLINE KENNEDY, (12) "HOMEMAKER TEACHER ASSISTS
LOW INCOME FAMILIES IN HARTFORD, CONNECTICUT" BY ELIZABETH W.
GASSETTE, (13) "CONSUMER PROBLEMS OF LOW INCOME FAMILIES" BY
ESTHER PETERSON, (14) "RURAL AMERICAN NEEDS HOME ECONOMISTS"
BY JOHN A. BAKER, (15) "PUBLIC WELFARE AND THE HOME
ECONOMISTS" BY ELLEN WINSTON, (16) "THE CONSUMER COUNSELING
PROGRAM OF AFL-CIO COMMUNITY SERVICE ACTIVITIES" BY PAUL
MEYDENHALL, (17) "COMMUNITY ACTION" BY ROBERT I. SHACKFORD,
(18) "THE OUTREACH" BY FRANCENA L. NOLAN, (19) "AHEA'S
OPPORTUNITY AND RESPONSIBILITY" BY A. JUNE BRICKER, AND (2)
"THE CHALLENGE--NEW CAREERS FOR THE POOR" BY FRANK RIESSMAN.

THE IDENTIFICATION OF COMMUNITY NEEDS IN TENNESSEE, THE STATEWIDE REPORT ON A COMMUNITY SERVICE AND CONTINUING EDUCATION PROGRAM.

BRADLEY, NOLEN E. ; MARTIN, PAUL R., JR.

Tennessee Univ., Knoxville. State Agency for Title I.

Publ. Date: MAY67 Note: 225P.

Descriptors: *College Programs/ Community Action/ *Community Problems/ *Community Programs/ *Community Resources/ Data Collection/ Economic Disadvantage/ Employment/ Geographic Regions/ Government (Administrative Body)/ Health/ Housing/ *Identification/ Land Use/ Program Effectiveness/ Recreation/ Transportation/ Youth Opportunities

Identifiers: ESEA TITLE 1/ TENNESSEE

THIS REPORT DESCRIBES A PROJECT WHICH IDENTIFIED COMMUNITY PROBLEMS IN TENNESSEE BY GEOGRAPHIC AREA. ACTION RESEARCH WAS DIRECTED TOWARD (1) THE DEVELOPMENT OF CHANNELS OF COMMUNICATION BETWEEN GOVERNMENTAL OFFICIALS, COMMUNITY LEADERS, AND COLLEGE AND UNIVERSITY STAFF MEMBERS, (2) THE IDENTIFICATION OF OTHER COMMUNITY RESOURCES CAPABLE OF ASSISTING WITH COMMUNITY PROBLEMS, (3) THE ASSIGNMENT OF PRIORITIES TO THE PROBLEMS ON A STATEWIDE BASIS, AND (4) THE SUGGESTION OF SOME TYPES OF COLLEGE LEVEL PROGRAMS TO ASSIST IN THE SOLUTION OF THE PROBLEMS. A CATEGORIZATION SCHEME DIFFERENT FROM THE ONE OUTLINED IN TITLE I LEGISLATION WAS DEVELOPED. IT INCLUDES--INDIVIDUAL SOCIAL PROBLEMS, FAMILY LIFE EDUCATION, ISOLATIONISM, CONTINUING EDUCATION FOR WOMEN, GENERAL EDUCATION PROBLEMS, LABOR-MANAGEMENT UNDERSTANDING, CONSUMER EDUCATION, NEED FOR INDUSTRIAL EXPANSION, AND PROBLEMS RELATED TO AGING. DATA CONTAINED IN THE REPORT ARE BASED ON SUBJECTIVE OPINIONS OF GOVERNMENT OFFICIALS, COMMUNITY LEADERS, SPECIAL INTEREST GROUPS, AND LAYMEN. ALSO INCLUDED ARE SOME "HARD" DATA FROM PUBLICATIONS AND REPORTS. SEVERAL FACTORS LIMITED THE EFFECTIVENESS OF THIS STUDY--(1) MANY COMMUNITY LEADERS TENDED TO VIEW CHRONIC PROBLEMS AS SITUATIONS TO BE TOLERATED, (2) RELATED LITERATURE WAS OFTEN SUPERFICIAL, (3) AREA REPORTS WERE WRITTEN BY NATIVES, AND THUS, ANALYSIS AND INTERPRETATION OF DATA MAY HAVE BEEN PREJUDICED, AND (4) BECAUSE MOST DATA WERE COLLECTED DURING A PRIMARY AND GENERAL ELECTION, MANY GOVERNMENT OFFICIALS HESITATED TO PARTICIPATE OR RESTRICTED THEIR VIEWS TO UNCONTESTED AREAS. RECOMMENDATIONS FOR ACTION ARE MADE. (AF)

MIGRANT LIFE EDUCATION COMPONENT.

DOUGHERTY, WILLIAM J.; MORGAN, LEILA

New Jersey State Dept. of Health, Trenton.

Publ. Date: 65 Note: 85P.

Descriptors: Crew Leaders/ Evaluation/ Field Trips/ Health/ *Health Education/ Homemaking Skills/ Labor Camps/ Leisure Time/ Migrant Adult Education/ Migrant Education/ *Migrant Health Services/ Migrant Housing/ *Migrants/ Migrant Workers/ Sanitation

Identifiers: OFFICE OF ECON. OPPORTUNITY

THE 20,000 AGRICULTURAL MIGRANTS WHO CONVERGE ON NEW JERSEY EACH SUMMER LIVE IN 2,000 LABOR CAMPS. THESE PEOPLE ARE IN POOR HEALTH AND LIVE IN HOUSING WHICH IS SUBSTANDARD. TO ALLEVIATE THIS SITUATION, THE MIGRANT LIFE EDUCATION PROGRAM WAS ORGANIZED IN THE SUMMER OF 1965 BY THE NEW JERSEY STATE DEPARTMENT OF HEALTH, AND HAD THE FOLLOWING OBJECTIVES--(1) REDUCTION OF PREVENTABLE ILLNESSES, (2) PROVISION FOR A HEALTH EDUCATION PROGRAM ON SANITATION, (3) PROVISION FOR CONSUMER EDUCATION FOR MIGRANT HOMEMAKERS, (4) PROVISION FOR PHYSICAL HEALTH ACTIVITIES AND OTHER RECREATION, AND (5) AROUSAL OF INTEREST IN CREW LEADERS AND FARMERS FOR THE HEALTH PROGRAM. TO ACCOMPLISH THESE OBJECTIVES, A STAFF WAS EMPLOYED WHICH INCLUDED A HEALTH EDUCATOR, A REHABILITATION COUNSELOR, AND TEMPORARY PERSONNEL AT FIELD SUPERVISORY AND SERVICE LEVELS. FROM THE MIGRANT RESIDENTS, 28 HEALTH AIDES WERE EMPLOYED TO WORK DIRECTLY WITH THE MIGRANTS. AN EVALUATION OF EACH FACET OF THE PROGRAM IS PRESENTED IN THIS DOCUMENT AND RECOMMENDATIONS ARE MADE FOR CONTINUATION OF THE PROJECT. (ES)

HEALTH EDUCATION IN SECONDARY SCHOOLS.

PAGE, RAY

Illinois State Office of the Superintendent of Public Instruction, Springfield.

Report No.: BULL-D-5

Publ. Date: 63 Note: 202P.

Descriptors: *Curriculum Guides/ Family Life/ *Health Education/ Individual Characteristics/ *Junior High Schools/ Mental Health/ *Secondary Schools/ *Senior High Schools

Identifiers: ILLINOIS/ SPRINGFIELD

A DIVIDED CURRICULUM OF LESSON PLANS FOR GRADES 7, 8, 9, THEN GRADES 10, 11, 12 WAS DESIGNED. BOTH GROUPS COVER GROWTH AND DEVELOPMENT, BODY CARE AND GROOMING, DENTAL HEALTH EDUCATION, NUTRITION, MENTAL HEALTH, FAMILY LIFE, FIRST AID AND SAFETY, CONSUMER HEALTH, COMMUNITY HEALTH, AND COMMUNICABLE AND NONCOMMUNICABLE DISEASES. SCHOOL HEALTH PROGRAMS PROVIDE THE CHILD WITH AWARENESS OF BETTER HEALTH AND IMPROVE BEHAVIOR IN SUCH A WAY AS TO BE CONDUCTIVE TO GOOD HEALTH.

A CALL FOR READERS TO ADD TO THE KNOWLEDGE BASE
IN CONSUMER HEALTH

The Educational Resources Information Center (ERIC) is a nationwide information system of the National Institute of Education, whose basic objective is to provide ideas and information on significant current documents in education, and to publicize the availability of such documents. Through a network of specialized clearinghouses, ERIC gathers, evaluates, abstracts, and indexes these materials, and processes them into a central computerized data system. The scope of the ERIC Clearinghouse on Teacher Education is the preparation and continuing development of education personnel, as well as selected aspects of health education, physical education, and recreation education.

The experts who participated in the development of this bibliography on consumer health noted that, in addition to providing information on recent studies contained in the ERIC data base and familiarizing readers with the names of prominent scholars in the field, this document also points up gaps in present knowledge and indicates issues needing further inquiry. We are convinced that the knowledge base in Health Education is in need of expansion, and that the profession, collectively and individually, has a responsibility to help in this endeavor. We are encouraging you, therefore, to submit to us any manuscript you have developed on this topic, and to encourage your colleagues to do the same.

We need a reproducible copy (two copies, if available) of any materials and, if possible, a brief abstract. Documents submitted are selected on the basis of their relevance to the current needs of the field. Those accepted are abstracted and indexed in the monthly journal, Resources in Education (RIE), and are made available in microfiche at over 600 locations and reproduced in xerographic form through the ERIC Document Reproduction Service. Copyrighted materials will receive only an announcement in RIE if permission to reproduce is not received.

Documents announced in RIE typically are unpublished or of limited distribution, and include research reports, program descriptions, speeches, annotated bibliographies, and curriculum guides. Dissertations available elsewhere are not announced in RIE.

We believe there are benefits in submitting documents to ERIC. Your research will be widely publicized since more than 5,300 organizations subscribe to Resources in Education. Publications that have limited distribution or are out of print can continuously be made available to readers through the microfiche collections and reproduction service. And you will be performing a professional service for your colleagues.

Please send relevant documents to:

GENERAL INFORMATION

1. PRICE LIST

The prices set forth herein may be changed without notice; however, any price change will be subject to the approval of the National Institute of Education Contracting Officer.

2. PAYMENT

The prices set forth herein do not include any sales, use, excise, or similar taxes which may apply to the sale of microfiche or hard copy to the Customer. The cost of such taxes, if any, shall be borne by the Customer.

Payment shall be made net thirty (30) days from date of invoice. Payment shall be without expense to CMIC.

3. REPRODUCTION

Express permission to reproduce a copyrighted document provided hereunder must be obtained in writing from the copyright holder noted on the title page of such copyrighted document.

4. CONTINGENCIES

CMIC shall not be liable to Customer or any other person for any failure or delay in the performance of any obligation if such failure of delay (a) is due to events beyond the control of CMIC including, but not limited to, fire, storm, flood, earthquake, explosion, accident, acts of the public enemy, strikes, lockouts, labor disputes, labor shortage, work stoppages, transportation embargoes or delays, failure or shortage of materials, supplies or machinery, acts of God, or acts or regulations or priorities of the federal, state, or local governments; (b) is due to failures of performance of subcontractors beyond CMIC's control and without negligence on the part of CMIC; or (c) is due to erroneous or incomplete information furnished by Customer.

5. LIABILITY

CMIC's liability, if any, arising hereunder shall not exceed restitution of charges.

In no event shall CMIC be liable for special, consequential, or liquidated damages arising from the provision of services hereunder.

6. WARRANTY

CMIC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

7. QUALITY

CMIC will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of CMIC. Best available copy will be supplied.

8. CHANGES

No waiver, alteration, or modification of any of the provisions hereof shall be binding unless in writing and signed by an officer of CMIC.

9. DEFAULT AND WAIVER

a. If Customer fails with respect to this or any other agreement with CMIC to pay any invoice when due or to accept any shipment as ordered, CMIC may without prejudice to other remedies defer any further shipments until the default is corrected, or cancel this Purchase Order.

b. No course of conduct nor any delay of CMIC in exercising any right hereunder shall waive any rights of CMIC or modify this Agreement.

10. GOVERNING LAW

This Agreement shall be construed to be between merchants. Any question concerning its validity, construction, or performance shall be governed by the laws of the State of New York.

11. DEPOSIT ACCOUNTS

Customers who have a continuing need for ERIC documents may open a Deposit account by depositing a minimum of \$200.00. Once a deposit account is opened, ERIC documents will be sent upon request, and the account charged for the actual cost and postage. A monthly statement of the account will be furnished.

12. STANDING ORDER ACCOUNTS

Customers who desire to receive microfiche copies of all ERIC reports announced in each issue of Resources in Education may do so by depositing \$2000.00 or submitting an executed purchase order. The cost of each issue and postage will be charged against the account. A monthly statement of the account will be furnished.

13. PAPER COPY (HC)

A paper copy (HC) is xerographic reproduction, on paper, of the original document. Each paper copy has a Vellum Bristol cover to identify and protect the document.

14. FOREIGN POSTAGE

Postage for all countries other than the United States is based on the international Postal Rates in effect at the time the order is shipped. To determine postage allow 60 microfiche or 60 (HC) pages per pound. Customers must specify the exact classification of mail desired, and include the postage for that classification with their order. Payment must be in United States funds.

OTHER ERIC COLLECTIONS AVAILABLE FROM EDRS

STANDING ORDERS

Subscription orders of microfiche copies of all ERIC reports announced in each issue of Resources in Education average \$160.00 per month at the rate of 8.7¢ per microfiche. Postage extra.
